Lawrence McIntosh
Project Leader: SolarShare
www.solarshare.com.au

Dear Lawrence,

I am pleased to advise that the committee of Friends of Mount Majura ParkCare Group (FoMM) at its meeting on 26 March 2015 has decided to fully support SolarShare's solar array project in the Majura Valley (Northern Block, (Majura) Majura registered rural bl 707 (NUZ1) – Broadacre).

FoMM trusts that SolarShare has good advice on three aspects of the project that are of specific interest to FoMM:

- (1) to find plant species for screening plantations that are appropriate for the grass lands of Majura Valley;
- (2) to investigate re-vegetation procedures for the site that foster native grasses and forbes;
- (3) to develop a weed-management plan that whenever feasible avoids the use of chemical control measures.

With kind regards and all our support for the success of this project,
